

Plus Colour Changer

- The Same Great Reliability and Value in an Improved Design

Selling over 50,000 units to date, it's no wonder the Chroma-Q™ colour changers have an industry proven reputation for performance and reliability.

Combined with a choice of models to fit most fixtures and new advanced features, the range offers outstanding value.

The new Chroma-Q Plus™ colour changer combines the proven performance and reliability of the Original Chroma-Q with new advanced features, providing even greater usability and flexibility at the same low price. Features include increased frame capacity (20 colours), variable fan and scroll speed via DMX, gel saver mode, digital LED display, power assist scroll loading and separately available universal mounting plate. Requires additional power supply.
